Extramural Funding

- | | |
|-----------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Pending | Therapeutic Hypothermia After Pediatric Cardiac Arrest: A Randomized Controlled Trial (THAPCA). National Heart, Lung, and Blood Institute. Total Proposed Directs Costs: \$12,262,963. Funding is pending for first 18 months. Funding for subsequent 3 ½ years dependent on enrollment in first 18 months. 10-20% effort for supervising administration and data collect at the central outcome center at KKI for the 15 participating sites. (F. Moler, PI) |
| 2007-2008 | Evaluation of a Family Therapy Treatment Model for families w/ Children w/ Brain Injury. Funding for one year, full time postdoctoral fellow provided by NIH T32, Brain Injury Research Grant. This study involves examining the efficacy of a clinical family therapy intervention. Role: PI (B. Slomine, PI). |
| 2002-2004 | Neuropsychological Validation of the Quality of Life Inventory, General Clinical Research Center, Kennedy Krieger Institute/Johns Hopkins University, RPN# 20 02 05 17. Funding for neuropsychological testing. This study is the extension of the validation of the Pediatric Quality of Life Inventory study described below. Role: PI (B. Slomine, PI) |

- 2001-2004 Validation of the Pediatric Quality of Life Inventory, Centers for Disease Control and Prevention, R49/CCR319701-01. The direct costs for the first year is 210,322. The direct costs for all three years is \$698,353. The time frame of year 1 is 9/30/2001 - 9/29/2002. For the three years it is 9/30/2001 - 9/29/2004. Ten to fifteen percent effort to oversee neuropsychological issues and assure quality at all sites. (M. McCarthy, PI)
- 2001-2003 Magnesium (administered in the ICU) and Pediatric Traumatic Brain Injury. National Institute of Child Health and Disability. 1 R21 HD41232-01. 7/1/01 to 6/30/03. Direct Costs: \$300,000. Twelve and a half percent effort for oversight of neuropsychological, behavioral, and functional testing to assure quality at both sites. (D. Shaffner, PI)
- 1998- Outcome following Moderate-to-Severe Pediatric Traumatic Brain Injury, Unfunded Neuropsychology Consultant, involved in analyzing data and preparing manuscripts, (J. Gerring, PI).
- 1993-1996 Hemispheric Differences in Emotional Memory, Bryan Robinson Foundation, \$1500, Design study, recruit subjects, conduct experiment, analyze data, and examine findings, (B. Slomine, PI).
- 1992-1995 Hemispheric Differences in Emotional Psychophysiology. Dissertation Research, Recruit subjects, conduct experiment, analyze data, write manuscript, (B. Slomine, PI).
- 1992-1994 Neuropsychology of Emotion. Graduate Research Assistant, (K. Heilman, PI).
- 1990-1993 Verbal Report of Emotion. Co-investigator. Design study, analyze data, and write manuscripts, (D. York, PI).
- 1989-1992 Anger Imagery and Corrugator Electromyography. Master's Thesis research. Design study, analyze data, and write manuscripts, (B. Slomine, PI).
- 1987-1989 Facial Coding of Emotional Expressions in Infants and Children Undergraduate Research Assistant. Assisted in data collection, facial coding, and data entry, (C. Izard, PI).

Research Program Building/Leadership

- 2008- American Academy of Clinical Neuropsychology Outcomes Consortium. The purpose of the consortium is to encourage all PI's to build outcomes-based research. PI of Pediatric TBI Outcomes Research Group within the Consortium.

Teaching

Prepare and provide didactic lectures to a variety of trainees, staff and faculty members at Kennedy Krieger Institute and Johns Hopkins University.

Workshops/Seminars

- 1997 - Selected Lectures, KKI's Neuropsychology Seminar Series
- 1999- Selected Lectures, KKI's Intern Neuropsychology Seminar Series
- 1999- Selected Lectures, KKI's Inpatient Continuing Education Series
- 2000- Selected Lectures, KKI's Core Course
- 2000- Selected Lectures, KKI's Neuropsychology Professional Development Series
- 2000 - Selected Lectures, JHH's Medical Psychology Didactic Lecture Series

2006- Healthcare Utilization and Need for Services in Children following Brain Injury, JHH Pediatric Neurology Grand Rounds

* See Invited Talks for other regional and national lectures

Mentoring

Supervision and training of predoctoral interns in psychology and postdoctoral fellows in pediatric neuropsychology. Each intern or fellow participated in intensive 6-month training periods in inpatient neuropsychological evaluation and neuropsychological rehabilitation under my direct supervision. More recent fellows also received research mentoring.

Educational Program Building/Leadership

1997- Actively involved in building predoctoral and postdoctoral training programs in clinical neuropsychology at Kennedy Krieger Institute

2006-2007 President Elect - Association for Internship Training in Clinical Neuropsychology

2008-2010 President – Association for Internship Training in Clinical Neuropsychology

2006-2008 President Elect – American Psychological Association’s Section 1 (pediatric interest) of Division 22

2008-2009 President - American Psychological Association’s Section 1 (pediatric interest) of Division 22

Educational Extramural Funding

1999- Leadership Training Program in Neurodevelopmental Disabilities (1999 to present). Maternal and Child Health Bureau. MCHB 6T73MC0019-09. Direct Cost for Current Year: \$951, 347. (G. Goldstein, PI) Role: Training of postdoctoral fellow and predoctoral interns in clinical neuropsychology. Ten percent effort.

CLINICAL ACTIVITIES

Certification

Licensed Psychologist, MD License # 03377

Diplomate in Clinical Neuropsychology, American Board of Professional Psychology (2001)

2006- Director, Neuropsychological Rehabilitation Services. Primary responsibilities include developing and maintaining a coordinated program of neuropsychological services throughout the rehabilitation continuum of care at Kennedy Krieger Institute. Responsibilities also include directly supervising all inpatient

neuropsychological services and services provided through the Brain Injury Early Intervention Clinic. Time Commitment: 85% (12 months a year).

Clinical Program Building/Leadership

- 1997 - KKI's Inpatient Programs, Clinical Neuropsychologist, Coordinator of Inpatient Neuropsychological Services at Kennedy Krieger Institute
- 1998- KKI's Rehabilitation Continuum of Care, Clinical Neuropsychologist, Member of Performance Evaluation/Performance Improvement Committee (see reference # 8)
- 2005- Brain Injury Early Assessment and Intervention Clinic, Director. Time Commitment: 5% (Approximately two days per month).
- 2006- KKI's Rehabilitation Continuum of Care, Director, Neuropsychological Rehabilitation Services (see description above)
- 2008- Technology Advisory Group, Disorders of Consciousness Working Group Chair, Member of Cognitive Prostheses working group. The purpose of the Technology Advisory Group is to assure that KKI Rehabilitation reflects cutting edge technology and that we secure sufficient resources to accomplish this.
