CLINICAL PRACTICE, INTERESTS, AND ACCOMPLISHMENTS

Clinical practice accomplishments since 2003:

- Consolidation of disparate pediatric therapy practices into single unified inpatient and single unified outpatient practices
- Development of annual pediatric rehabilitation strategic plan
- Initiation of a monthly pediatric rehabilitation "practice committee" to address the needs of our patients and practice
- Obtained the "STARscanner" 3-D laser data acquisition system to bring our plagiocephaly evaluations and treatment plan to state of the art level
- CARF accreditation for Pediatric Family Centered Rehabilitation Program (first ever)
- Advancement of pediatric rehabilitation research projects and including collaboration with other pediatric departments
- Participation in the design and practice planning related to the Mayo 16 multispecialty pediatric project
- Development of marketing strategy, particularly related to plagiocephaly evaluations and treatment

- Facilitation of patient population growth
- Development of pediatric rehabilitation website
- Development and/or review of dozens of patient education pieces relevant to pediatric PM&R
- Development and initiation of Pediatric Rehabilitation Medicine Fellowship
- Implementation of new pediatric wheelchair seating program
- Implementation of pediatric chronic pain management program
- Development of clinical pathways for pediatric intrathecal baclofen trials and pump implantation, selective dorsal rhizotomy, constraint induced movement therapy and others

Clinical interest in treating children with:
 cerebral palsy
 spina bifida
 developmental delays
 spasticity
 traumatic brain injury
 gait abnormalities
 musculoskeletal problems
 postural orthostatic tachycardia
